VAULTING ASSOCIATION OF SOUTH AFRICA

12th Edition – effective AUGUST 2020

PREAMBLE

The National Rules for the Vaulting Discipline are produced specifically for use at CVN or lower status Events and have been drawn up in the broadest possible terms so as to allow the Organizing Committees (OC) and/or Show Holding Bodies (SHB) affiliated to the Vaulting Association of South Africa (VASA) as much freedom as possible in the management of their Events and in the preparation of their Schedules. If there is any doubt about the meaning of any of these Rules they should be interpreted in the sense of providing fair conditions for all competitors. It is quite obvious that however complete the rules maybe they can never cover every eventuality. If the matter cannot be resolved by interpreting the Rules to the letter, the solution to be adopted should lie in the principle, which follows as nearly as possible the spirit of the official text.

These rules should be read in conjunction with the SAEF General Regulations, SAEF Veterinary Regulations, VASA Guidelines, The FEI Vaulting Rules, the FEI Vaulting Guidelines to the FEI Vaulting Rules and the FEI Code of Points to the FEI Rules for Vaulting.

Where these rules are unclear or does not cover a given situation, the FEI rules should be consulted.

Where these rules differ from the FEI rules, the VASA Rules and the VASA Guidelines must take precedence over the FEI Vaulting Rules.

CODE OF CONDUCT

FOR THE WELFARE OF THE HORSE

VASA and SAEF expects all those involved in Vaulting equestrian sport to adhere to this Code of Conduct and to acknowledge and accept that, at all times, the welfare of the Horse must be paramount and never be subordinated to competitive or commercial influences.

At all stages during the preparation and training of competition horses, the welfare of the Horse must take precedence over all other demands. This includes good horse management, training methods, farriery, tack and horse transportation.

Horses and Competitors must be fit, competent and in good health to be allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of riding aids.

Events must not prejudice the Horse's welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the Horse for onward travel after the event.

Every effort must be made to ensure that Horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, including treatment of competition injuries, euthanasia and retirement.

VASA and SAEF urges all involved with this sport to attain the highest levels of education in their areas of expertise.

CHAPTER 13

ADMINISTRATION

755 OVERVIEW

The Constitution of the VASA empowers the National Executive Council (**NEC**) in Clause 8.16, read together with Clause 15.16, to make any by-law or regulations necessary to promote the aims and objects of VASA. This Chapter seeks to regulate rule changes and specifically to add clarity to the timing and procedure for the implementation of any additions, alternations, deletions or variations of any existing Rule(s). The meaning of Vaulting Rule(s) and/or Regulations for the purposes of this Chapter includes all by-laws, rules, regulations, guidelines, policies or criteria published by VASA.

756 GENERAL PRINCIPLES

It is VASA's intention to follow the FEI Vaulting Rules (as amended) and FEI General Regulations as closely as possible, particularly regarding those areas of overlap (C Grade, B Grade and A Grade). It is accepted that, for areas where the FEI have no rules, regulations or guidelines, VASA shall have its own set of rules, known as the Vaulting Rules (12th Edition – Effective July 2020) and the VASA Guidelines. These Rules and Guidelines have been drawn up to specifically assist in the regulation of Vaulting in South Africa.

757 PROCEDURES

1 Frequency and Effective Dates of Rule Changes

- 1.1. In so far possible, the Vaulting Rules will be changed no more than once a year during the months of October to December.
- 1.2. The Vaulting Rules will be published on the VASA website during December of each year, by no later than 15 December of that year, and be effective as at the 1st January the following year.
- 1.3. If there is any Rule change between the publication of any Schedule and the commencement of a show, then the Rule change will not be applicable for that show.

2 Procedure for Rule Changes

- 2.1. It is recognized that Rule Changes decisions have far reaching implications for Vaulting and a thorough understanding of the interrelationships of the Vaulting Rules when compared with the impact on the athlete, officials, show holding bodies, administrators, ground jury and judicial body is needed.

- 2.2. For the reason, it is essential that all rule changes are made subject to the rigorous consideration of individuals / groups which have both knowledge and experienced in the affairs of vaulting and the impact of the Vaulting Rules in all spheres of vaulting.
- 2.3. The decisions made by these individuals / groups must, in addition, be subject to a process of appeal and review respectively to ensure a high level of oversight. This oversight is expanded on below.

3 Technical Committee

- 3.1. The Technical Committee (TC) will consist of the representatives chosen and approved by the VASA NEC, together with the Technical Portfolio on the NEC. The TC will be chaired by the Technical Portfolio Member on the NEC. VASA TRAINING SHOWS

The Rules in this document apply to all Graded Sanctioned Events / Shows in South Africa.

Over the years the various OC/SHB have developed various competitions for training purposes and a list of these Competitions are listed below. This is not a comprehensive list and it is up to the OC / SHB to provide the Rules for their Training Show in the published Schedule.

TYPE OF COMPETITIONS

Group Competition

1. A Group Competition is a form of training for the Squad Competition: a Vaulting group consists of a Lunger, Horse and 2 to 4 Vaulters of any age and sex who perform a freestyle routine in which up to three vaulters work on the horse at any one time.
2. Group Competitions may be offered at the walk or the canter.
3. As this is a training class, no grading points are not awarded to the Individual Vaulters in a group or for the Group.

Two-phase Competition

1. A Two-Phase Competition is any kind of competition where the Compulsory Test is performed on a Horse and the Free Test is performed on a barrel.
2. Grading points are not awarded in any kind of two-phase competition.

Competition for disabled vaulters

1. Any Rules regarding assistance should be waived in the case of a disabled vaulter who requires assistance at any stage.
2. The running of classes for disabled vaulters may differ from the normal exercises.

Barrel competition

1. Barrel classes are included in most shows to provide more opportunity for the Vaulters to train.
2. Barrel classes are typically run (and scored) like Horse classes (without any Horse score).

3. The Vaulters perform a Compulsory, Free Test and Technical Test (if applicable).
4. The Schedule should provide further details on how the Barrel classes will run and how they will be scored.
5. As this is a training class – no graded points are awarded for any barrel competitions.

D Grade Novice

1. The D Grade Novice applies to Individual Competition only.
2. The D Grade Novice class is for training purposes only and no grading points are awarded.
3. The D Grade Novice is run the same way as the D Grade Individual Competition, however, it scored differently, as the Vault on is not scored and does not count towards the Compulsory Test Score.
4. Again – it is up to the OC/SHB to provide for the Rules of the D Grade Novice class in the Schedule of the Training Show.
